

### KEY DATA

#### ANTI-PERSONNEL (AP) MINE CONTAMINATION: UNKNOWN

AP MINE  
CLEARANCE IN 2021  
**UNKNOWN**

AP MINES  
DESTROYED IN 2021  
**UNKNOWN**

### LAND RELEASE OUTPUT

### RECOMMENDATIONS FOR ACTION

- Kyrgyzstan should accede to the Anti-Personnel Mine Ban Convention (APMBC) as a matter of priority.
- Kyrgyzstan should clear anti-personnel mines in areas under its jurisdiction or control as soon as possible, consonant with its obligations under international human rights law.
- Kyrgyzstan should detail whether it has fully addressed mine contamination in areas under its jurisdiction or control and, if not, report on the extent and location of remaining mined areas and clearance operations.

### DEMINING CAPACITY

#### MANAGEMENT CAPACITY\*

- Kyrgyzstan has no functioning mine action programme.

#### NATIONAL OPERATORS

- The Ministry of Defence (MoD) undertakes clearance of explosive remnants of war (ERW).

#### INTERNATIONAL OPERATORS

- None

#### OTHER ACTORS\*

- None

\* This is based on information from earlier years. It is not known if the information remains accurate.

### UNDERSTANDING OF AP MINE CONTAMINATION

Kyrgyzstan is suspected to be contaminated by mines, though the precise location and extent of any mined areas is not known. According to the Minister of Defence (MoD), contamination in the southern Batken province bordering Tajikistan and Uzbekistan, the result of mine use by Uzbekistan's military between 1999 and 2000, was cleared by Uzbek forces in 2005.<sup>1</sup> It was reported, however, that rainfall and landslides had caused some mines to shift.<sup>2</sup> In 2003, Kyrgyz authorities claimed that

2 See, e.g., Y. Yegorov, "Uzbekistan agrees to remove minefields along its border with Kyrgyzstan", *Eurasia Daily Monitor*, Vol. 1, No. 41 (29 June 2004).

Uzbek forces had also laid mines around the Uzbek enclaves of Sokh and Shakhimardan located within Kyrgyzstan. Press reports have suggested that Uzbek troops partially cleared territory around the Sokh enclave in 2004–05 and that they completely cleared mines around the Shakhimardan enclave in 2004.<sup>3</sup>

In October 2017, Uzbek President Islam Karimov, and his Kyrgyz counterpart, Almazbek Atambaev, signed an agreement to demarcate some 85% of the countries' nearly 1,300km-long border and began discussing options for the 36 disputed sectors.<sup>4</sup> In March 2021, the prime ministers of Kyrgyzstan and Uzbekistan reached an agreement to end territorial disputes. The agreement entails land swaps and facilitation of movement between the two countries. According to online media sources, the Kyrgyz head of security services, Kamchybek Tashiyev, announced that "issues around the Kyrgyz-Uzbek border have been resolved 100 percent" and that "there is not a single patch of disputed territory left".<sup>5</sup> However, other sources suggested that, in April 2021, just a month later, Mr Tashiyev had told residents of some disputed areas in Kyrgyzstan's southern provinces that the agreement was "not completely a done deal".<sup>6</sup> It has also been reported that the agreement was not ratified after Kyrgyz citizens voiced dissatisfaction over terms concerning use of a reservoir.<sup>7</sup>

Kyrgyzstan has admitted using anti-personnel mines in 1999 and 2000 to prevent infiltration across its borders, but has claimed that all the mines were subsequently removed and destroyed.<sup>8</sup> In June 2011, a government official confirmed: "We do not have any minefields on the territory of Kyrgyzstan."<sup>9</sup>

In October 2011, ITF Enhancing Human Security (ITF), the Organization for Security and Co-operation in Europe (OSCE), and Kyrgyzstan's Ministry of Defence conducted a mine action assessment mission. The assessment confirmed that poor ammunition storage conditions as well as obsolete ammunition posed a serious threat to human security. Agreement on cooperation was reached on 23 July 2015, when the ITF signed a Protocol on Cooperation with the MoD of the Kyrgyz Republic.<sup>10</sup> The ITF has reported that in 2014 it continued to implement activities agreed on in the Protocol on Cooperation, which included technical checks on anti-personnel mines and other ammunition in three storage warehouses.<sup>11</sup>

---

## PROGRAMME MANAGEMENT

Kyrgyzstan has no functioning mine action programme. Clearance of explosive remnants of war (ERW) is carried out by the MoD.<sup>12</sup>

The Commonwealth of Independent States (CIS), of which Kyrgyzstan is a member, has reported that on 24 June 2022, following a meeting of the CIS Council of Defence Ministers, Russia's Minister of Defence, Sergei Shoigu, pledged that a joint unit of humanitarian demining will be created in the CIS. No timeline for this was given.<sup>13</sup> Kyrgyzstan has not shared any information on this with Mine Action Review and it is not known if Kyrgyzstan has been involved in these discussions.

---

## ENVIRONMENTAL POLICIES AND ACTION

It is not known how, if at all, the environment is taken into consideration during planning and tasking of survey and clearance of mines in Kyrgyzstan in order to minimise potential harm from clearance.

---

## LAND RELEASE OUTPUTS AND PROGRESS TOWARDS COMPLETION

There are no reports of any survey or clearance of mined areas occurring in 2021.
